

Table of Contents

The HMDCB Study Guide is an expansion of HMDCB's [Content Blueprint](#), which is the form used to develop all exam questions. The guide provides a detailed outline of the blueprint's five content domains, additional preparatory resources, and three sample questions for each domain. The guide can be purchased for \$149 on the My HMDCB Certification Center. The guide is only available digitally, but can be downloaded/printed.

This user guide outlines the following: how to purchase the study guide; how to access the study guide for the first time; and how to access the “completed” study guide. The study guide is intended to be used only for individual, personal review and study by the original purchaser. *You may **not** transmit, distribute, upload, or store the document on any other website or other form of electronic distribution or retrieval system.*
